

LUXURY STAIRS

Bespoke
staircase manufacturer

LuxuryStairs are specialists in the manufacture of straight and curved wooden stairs. We match first class timbers with custom designed glass, metal and iron wrench steel.

Every project is afforded great care from the early stages of drawings, through the building process to final completion. At LuxuryStairs you can be 100% sure that you are buying stairs directly from source.

Please Contact us today.

WELCOME TO THE WORLD OF LUXURY STAIRS

At LuxuryStairs, we offer you the opportunity to create a breath-taking visual impact with exclusive bespoke stairs, combining perfect design know-how with the latest technology, to deliver the staircase of your dreams. We started 35 years ago in 1982, from our factory based in Poland. From the very beginning our focus concentrates on the design, manufacture and installation of bespoke stairs of the very highest quality.

We offer a professional service that will bring together your expectations and our design in an exclusive product. By using our made-to-measure staircase company, you can be sure that you will achieve exactly the staircase you desire.

Our experts at LuxuryStairs purchase over 120 cubic metres of UNSORTED GRADE I timber each month, which enables our factory to produce between 40 - 50 luxury

stairs per month. We have two CNC machines (5-axis and 4-axis), together with additional woodworking plants to ensure each project receives precise execution and a smooth production process. Every day 25 experienced craftsmen take care to ensure that your luxury stairs will meet your expectations.

Our stairs are manufactured from timber which has been stored in our purpose-built, climate controlled and pressure-sealed storage unit, which maintains perfect moisture content of the timber. This enables us to offer our customers a five-year warranty* which includes all timber, construction and installation of the stairs. (*this does not include wear and tear of lacquer or varnish)

Please get in touch with us to commence production of your dream stairs.
